

ACCUBIND⁺ DW 401

Another pioneering product from Pinnacle, this machine is designed to achieve greater productivity in less time.

This model has two Separate Windows to operate different processes simultaneously. It comprises all the processes involved in Binding, like Window Cutting, Creasing, Hole Punching and Stapling. With a built in Digital Micro Controller, this machine helps you pre-define each project and save it for later use. It also has a unique feature of getting two Creases on a single page, especially used for Creasing of the first and last page of an Album.

AccuBind offers first-of-its-kind, highly accurate innovative "V" shaped Hole Punching and Step Binding for a complete Lay Flat Look of the Photo book.

Key features :

Pneumatic Connection is Required

Digital Micro Controller, with a large LCD Touch Screen to pre-define and save each project

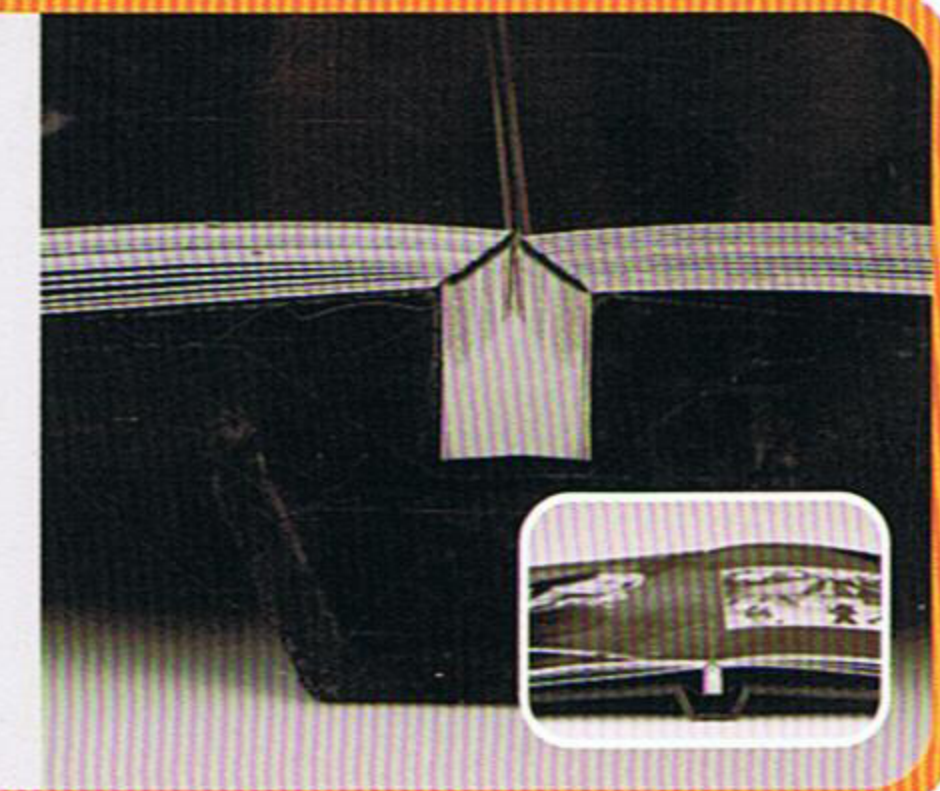

A Stack Tray is provided for handling the prints easily

Movable and Convenient Stapler with a Sliding Tray is provided

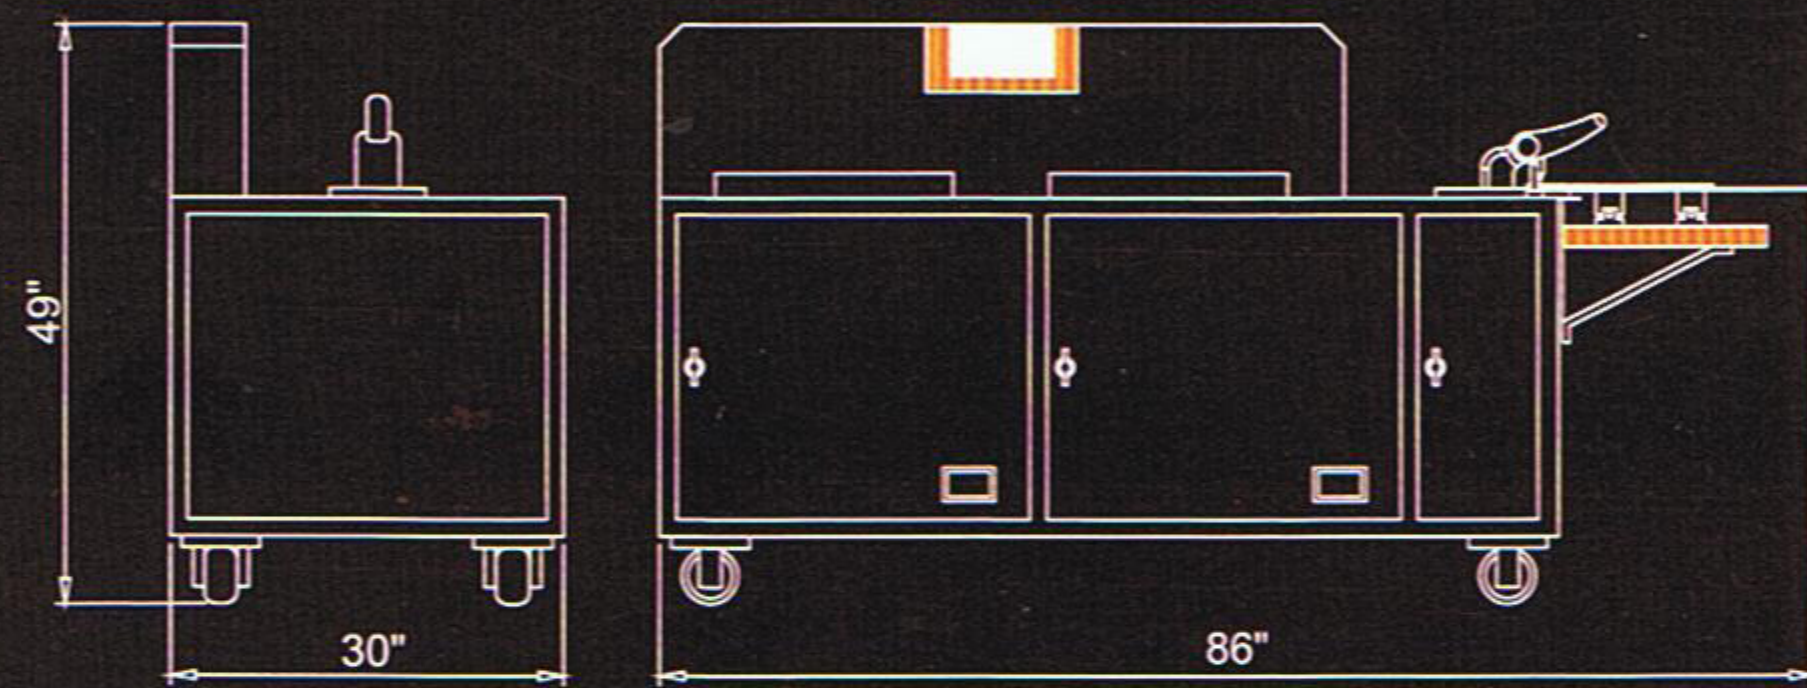

Innovative "V" shape Lay Flat Book binding process

100 projects can be stored with precise memory of Window Cutting, Creasing and Hole Punching measurements

Combines the process of Window Cutting, Hole Punching and Stapling process with utmost precision, done on Separate Windows

The Two Binding options available are WINDOW CUTTING or CREASING
