

Digitec UV Coating and Curing Machine

(Separate Work Stations)

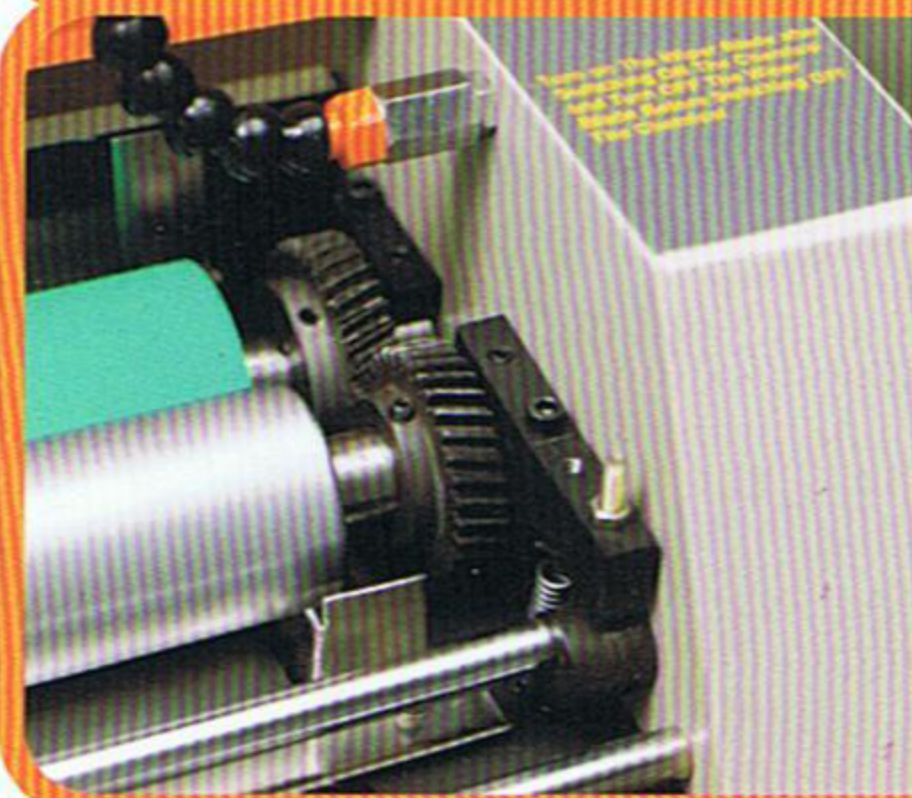

To facilitate further usages of the Digitec UV Coating and Curing Machine, we have separated its two functions, UV Coating and Curing. This particularly helps specific segments like Screen Printers, who can opt only for the Curing Machine for their particular need.

Key features :

Suitable for all types of offset, digital prints like HP, Konica, Minolta, Cannon, Xerox, Kodak, Photopapers and more

Two Separate Tanks and Lines for different types of UV chemicals

Thickness Control Mechanism

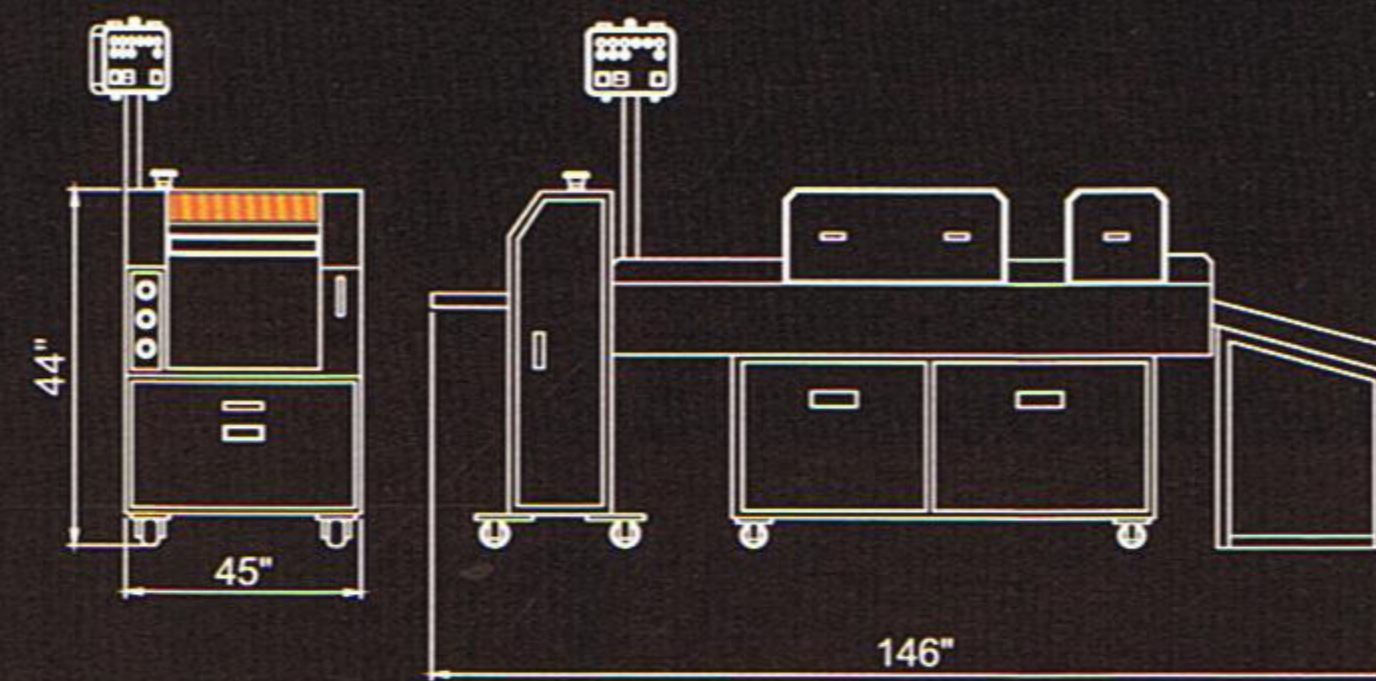

Easy to change Rollers for getting diverse and creative textures

Easy to switch over the Chemical Connection Lines

Separate work stations for Coating and Curing

Maximum Coating speed of 30 meters / minute (which may vary depending on paper and UV thickness)

Sr. No.	Model Name	Size (Inch)	Power Supply	Power Consumption	Floor Area Dimension (Inch)	Weight (Approx)
1	Digitec UV Coating & Curing Machine	15"	220 V AC or 3 PH + N.	5 KW	Coater : 22 x 33 x 44 Curing : 72 x 39 x 44	250 Kg.
2	Digitec UV Coating & Curing Machine	20"	3 PH + N.	6 KW	Coater : 22 x 37 x 44 Curing : 72 x 43 x 44	320 Kg.
